- English (A)
- Science (B)
- Design (B)

A-Levels

- Business Studies (C)
- Biology (D)
- Chemistry (D)

PERSONAL PROFILE

I am a multi-skilled vehicle technician with over 15 years of mechanical and technical experience in the car build sector, classic restoration and motorsport mechanics. I have taken this knowledge and now enjoy portraying this in front of the camera. I have enjoyed working alongside the BBC, eBay and other brands producing on screen automotive content.

My passion for sport having played semi-professional football up to my early twenties also keeps me busy and I have worked alongside TNT Sports with an on-screen piece for their social media.

EMPLOYMENT HISTORY

Presenter – Repair Lot, DAVE channel (Attaboy Productions)

August 2022 – October 2023

- Speak to camera and introduce repairs carried out.
- Learn lines and convey them effectively to an audience.
- Be punctual on set and maintain high levels of time keeping.
- Research repairs needed on the cars and ensured suitable and understandable language is used to speak to the audience.
- Carry out speech to camera whilst driving.
- Work closely with the producers, camera people and the show runner to ensure filming days ran smoothly.

Off screen car builder – NBC Hot Wheels : Ultimate Challenge

February - May 2023

- Provide support on set for car building services and ensure that all on screen personnel are on timeline target.
- Support the camera team in getting all images important for the filming and edits of the show.
- Keep to strict deadlines set by production to build cars for each episode.
- Maintain high levels of health and safety through all builds both on set and in the off-screen garages.
