## About me

Versatile Czech actress with over 10 years of stage, film, and screen experience. Skilled in both classical and contemporary theatre, devising, and directing. Passionate about storytelling and collaborative performance. A recent review of my performance in *Junk*:

Karoline Sedlarova, as Lily, DLT Debut, was magnetic in her stage presence. Her projection, authenticity, and overall believability were remarkable, especially for a debut performance. She brought subtle layers to her role that added emotional complexity and credibility to the group dynamic.
